## Letter Of Recommendation

Siddarath, an electrical engineering graduate, is an aficionado towards new learnings technologies and ideas. Having known him for past two years as an undergraduate student of Electrical Engineering at Adani Institute of Infrastructure Engineering, Ahmedabad, India, it is my pleasure to write this letter of recommendation for pursuing master's course at your esteemed university. Siddarath has maintained a good academic record with a CGPA of 8.5/10 during his undergraduate programme. He has keen interest in programming and data analytics which drives him to move forward towards soft computing and analytics domain.

Siddarath has successfully scored 'BB' and 'AB' grades in the courses termed as "Interconnected Power System" and "Power System Operation and Control" which were taught by me. These subjects involved high mathematical aptitude with comprehensive coding lab sessions. He is actively involved in pursuing coding projects where he had exposure to various programming languages such as Python, MATLAB, Octave and Simulink which made him to persuade his final year project in Machine Learning, titled as: "Fault Identification in Grid-tied Wind Energy Conversion using Supervised Machine Learning". Currently, he is working as an assistant manager in Adani Green Energy Ltd with the job role as junior data analyst. I believe that his analytical and programming skills will contribute significantly to the research and development at your esteemed university. I strongly recommend him for the master's programme.

In case of any queries, feel free to contact the undersigned.

Regards,

Dr. Raj B. Jadav  
Assistant Professor,  
Department of Electrical Engineering  
Adani Institute of Infrastructure Engineering (AIIE)

## Letter Of Recommendation

It is with great pleasure I am recommending Siddarath Vats as a prospective graduate student at your esteemed university. Siddarath has attended subjects like "Computer programming and utilization" and "Cyber Security" in semester 2 and 5 respectively, under my guidance. During these three years I had the opportunity to observe him close quarters as his assistant professor.

I have found Siddarath to be a profound thinker who has an eye for detail, his curiosity towards learning new things is something I have always acknowledged. His problem solving ability and his analytical skills have always been exceptional which makes him fundamentally strong. His technical skills are exemplary and he is always keen on learning new technologies and adapting to them accordingly.

Siddarath has interacted with me frequently and I found him to be an intelligent, regular and a hardworking student. He has always had a serious and dedicated approach towards all the subjects. He has also been involved in a lot of projects and activities that were taught during the laboratory sessions under my guidance. He has always excelled in each and every session and has accomplished all the assignments with the best approach and utmost perfection. He has contributed actively towards classroom discussions that proved his intellectual might. Currently he is working in analytics department of Adani Green Energy Ltd with the role as junior data analyst.

I have known Siddarath for the past three years and on a personal level I find him to be very kindhearted, friendly and treats his classmates and faculties with utmost respect. I am of the view that Siddarath will be a worthy student at your esteemed university, pursuing a master's degree will help him sharpen his existing skills. Hence, I strongly recommend him to be considered as a prospective student for admission into your university.

Please feel free to contact me for further information
